Climate

Viehnam lies in the tropics, with a warm climate year-round. The north has a cooler season, where winter temperatures drop to a mild average of 22°C. The southern part of the country has a tropical monsoon climate, with heavy rainfall during the rainy season (June to September). The northern highlands have a cooler climate, with temperatures ranging from 15°C to 25°C.

Geography and Climate

Nam Bo - The South

Imperial City

Imperial City, the capital of the country, lies in the central region, between the two major rivers, the Red River and the Mekong River. The city is located in the delta region, which is rich in rice paddies and is the agricultural heartland of the country. The city is known for its rich history and culture, with many ancient temples and pagodas. The city is also a major center of trade and industry, with a large port on the Mekong River.

Trung Bo - Central Region

Ha Noi is the largest city in the country, with a population of over 5 million. The city is located on the Red River Delta, which is one of the most fertile regions in the world. It is the capital of the country and is an important center of government, culture, and education. The city is also a major economic hub, with a thriving service sector.
